Vacancy in Llangennith: In the last Parish Magazine the Community Council asked for expressions of interest for people who wished to fill the vacancy for a councillor in the Llangennith ward. Because of the local government requirement that a councillor should live within 3 miles of the ward boundary as the crow flies, this vacancy is open to many residents. The council has, so far, received no interest but this may be because the magazine was not delivered long before the July Council meeting. The council next meets at the beginning of September and anyone interested should contact the Clerk - details given above.

In the meantime the Council wishes everyone an enjoyable summer.

GOWER COAST CONSTRUCTION “Happy to help”: The Council has been working to improve the look of the area at Burry Green, clearing back overgrown hedges, improving the drainage and clearing out two ponds. So we were saddened by recent wilful damage done to the iconic bus shelter at Burry Green which was built in the 1950s. Residents were upset by the mindless vandalism that saw the seating, drainpipes, notice board and fencing broken.

However a local building company offered to put things right—indeed better than that Rupert Mathias of Gower Coast Construction, who are building a new house in Burry Green, also offered to repaint the shelter. Thanks to this building company the Bus Shelter is good as new again.
